1 GreenKidz Donation Letter

Subject: Formal donation request starting from ANG 450.00 onwards

GreenKidz inclusive party for vulnerable and disadvantaged children

For ANG 450,- 18 children from care homes and poorer neighborhoods can participate in our inclusive Kids party on May 10th 2025 at the Curaçao Children's Museum to celebrate our 10th anniversary.

Curaçao, February 1st, 2024

Dear GreeKidz friends and relations,

With this letter, I would like to ask you for a donation for our inclusive GreenKidz Kids Party for vulnerable children. With this Kids party, we want to celebrate our tenth anniversary at the Curaçao Children's Museum, an organization we will be partnering with from 2025 onwards.

GreenKidz embraces diversity and inclusion and on our tenth anniversary, we want to give especially vulnerable and disadvantaged children from care homes and poorer neighborhoods the chance to enjoy a unique and carefree Kids Party.

For an amount of ANG 25 per child, we can offer these children and their supervisors a unique and festive event full of fun and educational activities including transport, refreshments and a small parting gift in the form of a GreenKidz Colouring Book.

We aim to invite at least 120 and hopefully 240 vulnerable children from care homes and poorer neighborhoods to our 10th anniversary celebration and give them an unforgettable day. Can we count on your support?

Kind regards

Maya Mathias, GreenKidz creator & coordinator

2 GreenKidz inclusive anniversary party

On Saturday May 10th, 2025, we will organize an inclusive kids party for vulnerable and disadvantaged children. In honor of our 10th anniversary we want to put kids in the spotlight who don't have an ideal living situation due to poverty or parents who are unable to take care of them.

We aim to offer at least 120 kids, and up to 240 kids from care homes and poorer neighbourhoods, a carefree kids party at the Curaçao Children's Museum full of fun and educational activities.

This way, we want to show the community that our foundation aims to be inclusive for all children on Curaçao. To reach these children, we will work closely with the Federation for Antillean Youth Care (FAJ) of which all care homes and community centers are members.

3 GreenKidz Project budget

To organize our inclusive children's party, we need a **minimum budget** of **ANG 3.000** and an **ideal budget of ANG 6,000**. Our GreenKidz Fundraising for this inclusive kids party will last till April 1st 2025 to May 1st 2025.

Companies can make donations starting from ANG 450. For this amount, we can invite 18 children and their supervisors to our 10th anniversary kids party, including bus transport, creative, sports and musical activities, food and drinks and a farewell gift for each child.

We are currently working hard to raise funds for our GreenKidz party. By the end of April 2025, we will take stock of the amount of funding collected. Hopefully we will be able to offer at least 120 children and up to 240 children from care homes and poorer neighborhoods the opportunity to celebrate our tenth anniversary with us.

4 GreenKidz partnership with Children's Museum

In our second decade, GreenKidz will work closely with the Curaçao Children's Museum, where children can play and discover to their hearts' content. We feel that this collaboration is both complementary and enriching for parties.

It allows us to execute GreenKidz lessons and activities at the Children's Museum with its beautiful indoor and outdoor facilities, develop new, inclusive projects together and team up with an enthusiastic children's museum team.

With the help of FAJ (Federatie Antilliaanse Jeugdzorg) , we want to develop more inclusive projects for vulnerable and disadvantaged children on Curacao, who attend special needs' schools and live in care homes or poorer neighborhoods.

5 GreenKidz on social media

Our Children's Party will be held on May 10th, 2025, in the beautiful indoor and outdoor spaces of the Curaçao Children's Museum with all kinds of fun, playful and creative kids activities. We will take many photos and make many videos and an aftermovie for social media. Naturally, we will thank all our sponsors and donors in our aftermovie, which will be generously shared on social media!

6 GreenKidz mission and objectives

The GreenKidz Foundation was established in 2015. The foundation encourages Curaçao's youth to actively contribute to a greener, cleaner and healthier Curaçao. **GreenKidz focuses on schools in primary, special needs and secondary education and also organizes awareness events for Curaçao's local community.**

To achieve our goals, we develop modern, multilingual, green teaching materials and interactive teaching programs, which include field trips, guest lessons, outdoor activities and craft workshops. These programs are supported by our trilingual **website www.greenkidz.org, where all GreenKidz materials can be downloaded free of charge.**

7 GreenKidz partners and outreach

GreenKidz works closely with all local school boards and a large number of 'green' experts, role models and (youth) organizations on Curaçao, such as Carmabi, Uniek Curaçao, Federatie Antilliaanse Jeugdzorg (FAJ) and the Curaçao Children's Museum. Our activities are carried out by an idealistic team of more than 35 local professionals, including guest lecturers, educational material developers, writers, translators, designers and multimedia specialists.

Over the past 10 years, GreenKidz has reached thousands of students and hundreds of teachers with programs for GreenToddlers, GreenKidz, GreenTeens and GreenTeachers. In total, we developed 8 different programs, all of which can be found on our website. These programs cover waste, litter, plastic (soup), recycling, personal hygiene, native trees and protecting our beautiful coral reef.

Annex B | GreenKidz overview

1. Our mission

The GreenKidz Foundation was established in 2015 to contribute to the environmental education of our Caribbean youth. Through our programs we instill a love of nature and care for the environment in children. Our mission can be summarized as follows:**'Free and modern environmental education for every child in the Dutch Caribbean.'**

2. Our programs

In recent years, we developed successful educational programs and teaching materials on **litter, waste, plastic and recycling, the coral reef, native trees, personal hygiene and mosquito prevention.** We developed these multilingual programs, with a clear Caribbean look and feel, for GreenToddlers, GreenKidz, GreenTeens and GreenTeachers.

3. Our reach

In the past 9 years, we have reached**thousands of students and hundreds of teachers** in Curaçao, including the group of 'teachers-in-training' following their Bachelor program at the University of Curaçao (UoC). We also increasingly established contacts with other islands in the Dutch Caribbean to share knowledge and educational materials.

4. Our ambition

In the coming years, we want to further digitalize our educational programmes and make them accessible to all children in the Dutch Caribbean. This means that we will increasingly enrich our teaching materials with interactive, **digital tools, multilingual e-learns and an inclusive online and offline Kidz Magazine for the entire Dutch Caribbean.**
